Contents of Volume

The weed seed bank of soils in a landscape segment in southern Bavaria – I. Seed content, species composition and spatial variability
H. Albrecht & E.-M. Forster 1–10

Composition and structure of a chronosequence of young, mixed-species forests in south-eastern Ohio, USA
E.R. Norland & D.M. Hix 11–30

Responses in stomatal conductance to elevated CO_2 in 12 grassland species that differ in growth form
A.K. Knapp, E.P. Hamerlynck, J.M. Ham & C.E. Owensby 31–41

Vegetative and edaphic characteristics on relic charcoal hearths in the Appalachian mountains
M.J. Young, J.E. Johnson & M.D. Abrams 43–50

Clonal organization of populations of *Asarum europaeum* and *Maianthemum bifolium* in contrasting woodland habitats
B. Czarnecka 51–62

Variability of plant species diversity in Swedish natural forest and its relation to atmospheric deposition
Qinghong Liu & S. Bråkenhielm 63–72

Growth patterns of the alien perennial *Bunias orientalis* L. (Brassicaceae) underlying its rising dominance in some native plant assemblages
T. Steinlein, H. Dietz & I. Ullmann 73–82

Spatial autocorrelation and dispersal in mistletoes: field and simulation results
J.McC. Overton 83–98

Community patterns on exposed cliffs in a Mediterranean calcareous mountain
A. Escudero 99–110

Reconstruction of the vegetation at A.D. 915 at Ohse-yachi Mire, northern Japan, from pollen, present-day vegetation and tephra data
C. Yonebayashi 111–122

Soil algae from acid rain impacted forest areas of the Krušnéhory Mts. 1. Algal communities
A. Lukešová & L. Hoffmann 123–136

Comparative spatial distribution, size, biomass and growth rate of two varieties of bracken fern (*Pteridium aquilinum* L. Kuhn) in a neotropical montane habitat
M.E. Alonso-Amelot & S. Rodulfo-Baechler 137–147

Classification of natural forest communities of coastal British Columbia, Canada
K. Klinka, Hong Qian, J. Pojar & D.V. Meidinger 149–168

Vegetation change in semiarid communities
T. Wiegand & S.J. Milton 169–183

The effect of plant size on vegetative reproduction in a pseudo-annual
R.W. Verburg, R. Kwant & M.J.A. Werger 185–192

Spatial patterns of dispersal, seed predation and germination during colonization of abandoned grassland by *Quercus petraea* and *Corylus avellana*
J. Kollmann & H.-P. Schill 193–205

Are the Characeae able to indicate the origin of groundwater in former river channels?
G. Bornette, M. Guerlesquin & C.P. Henry 207–222

Book reviews / Short reviews 223–226
Instructions to Authors 227–230
Contents Volume 125 / List of Contributors 231–232
